Fed funds rate after Dec 2026 meeting?

Open on Kalshi

2 markets

Will the upper bound of the federal funds rate be above 3.75% following the Fed's Dec 9, 2026 meeting?

Same bet on Polymarket

Yes 0.96 | No 0.05 saved 2026-10-10 04:30:29 UTC · 24h vol 5054.09

▶ Payoff fields

equinox-bot · from the log, 2026-10-10 04:30:29 UTC

Match	`same`	All seven payoff fields are equal, so YES on one pays exactly when YES on the other pays. vs polymarket:synthetic-fedfnds-2026-12-09-gt3pt75 (Above 3.75%)
Yes	`buy_on_polymarket`	Compared yes on kalshi at 0.96 with yes on polymarket at 0.95; polymarket is cheaper. Fees were not applied because a fee is unknown on both venues.
No	`buy_on_kalshi`	Compared no on kalshi at 0.05 with no on polymarket at 0.07; kalshi is cheaper. Fees were not applied because a fee is unknown on both venues.
Match	`opposite`	All payoff fields are equal except cutoff_op, where gt is the exact complement of lte, so YES on one pays exactly when NO on the other pays. vs polymarket:synthetic-fedfnds-2026-12-09-lte3pt75 (3.75% Or Below)
Yes	`buy_on_kalshi`	Compared yes on kalshi at 0.96 with no on polymarket at 0.97; kalshi is cheaper. Fees were not applied because a fee is unknown on both venues.
No	`buy_on_kalshi`	Compared no on kalshi at 0.05 with yes on polymarket at 0.06; kalshi is cheaper. Fees were not applied because a fee is unknown on both venues.

Will the upper bound of the federal funds rate be above 4.00% following the Fed's Dec 9, 2026 meeting?

Yes **0.86** | No **0.17** saved 2026-10-10 04:30:29 UTC · 24h vol 66.70
